President's Message

A new year has begun, and we are all back to serving our students, teaching numerous courses, and performing our best for our respective institutions. Even though it is the beginning of the semester and the beginning of the year, it is just a short amount of time till our annual conference convenes.

I have a full schedule that I hope you will enjoy. There are four well-known speakers lined up for our conference, as well as a statistics workshop. In addition to these excellent speakers, many of our outstanding members have volunteered to present and share information with us during the times set aside for the numerous breakout sessions. A tentative schedule is provided for your perusal.

In my previous President's Message you may recall that a Fee Waiver, supported by the Board, was alluded to. We are all aware that funding for travel has dwindled over the years; times have changed from how funding and budgeting used to be.

This year the IMACC Board has decided to offer a fee waiver. In an effort to recruit new members to IMACC and new participants to the annual IMACC conference, we will be raffling off scholarships, in the form of fee waivers, to cover the registration, lodging at the Allerton House, and fees for five (5) current IMACC members. If you know someone who is not a member, encourage him or her to join so they are eligible to apply. Please encourage your colleagues to apply for this fee waiver, especially those who have not yet attended an IMACC conference or those at institutions that do not support faculty travel. To apply, send your regular conference registration to the conference coordinator as usual but include a cover letter that briefly addresses the applicant's lack of college funding, or support, or that they are new to the IMACC conference. Again this fee waiver is an attempt to recruit new members to the IMACC conference or assist faculty who are not usually able to attend because of the lack of funds from

Is Your Membership Current?

Be sure to check your membership expiration date listed on the IMACC website. If your membership has expired or is about to expire, you can use the form on page 17 to renew. In addition, if there are mathematics faculty at your college who are not members of IMACC, please invite them to join. Please take time to also check the Institutional Membership for your school.

Presidents Message, continued

their college. If you decide to apply for the fee waiver, please send in your registration and cover letter to the conference coordinator by Feb 20, 2017. The regular registration materials are included in this newsletter as usual. This fee waiver is a new adventure that the Board is trying and after this conference will reevaluate the processes involved concerning the fee waiver.

If you have not already done so, I encourage you to renew your membership. In addition to making sure your membership is current, consider trying to find a way to become more involved in IMACC this next year. Seek out some committees that you can assist, or perhaps consider running for a board position. One committee that can use some additional expertise is the committee that is in the process of seeking ways to improve our website. If you are interested in serving on such a committee, contact Andy Geary. There are also opportunities to present at our conference next year.

Before I close, let me remind you to note the dates of the ISMAA conference that will be held at the College Of DuPage this year. In addition, keep in mind the WisMATYC conference later this year, which is held in Janesville WI. For further information, refer to the Winter ConneXion News Letter, “Other Conferences to Consider” as well as the “Upcoming Conferences” section.

I appreciate the opportunity to have served as your president. I have the highest regard for the IMACC organization and its fantastic members; I have had great experiences serving on different committees and working with numerous educators from other institutions. I have learned so much from others. Attending the annual IMACC conference and networking with other attendees has developed me to the member I have become. IMACC is a great community of educators who care about mathematics education and have been instrumental in shaping the state’s curriculum. I hope you decide to attend this year’s conference, April 6-8, 2017. If you do, I look forward to seeing you there.

Editor's Message

As we are still in the middle of winter, I find myself looking forward to IMACC's Annual Conference at Allerton in the spring and the hopes of the flowers in bloom while we are there. Attending the conference is always a great way to reconnect with friends across the state, share ideas, and learn about new initiatives in mathematics education.

If you have been to the IMACC conference before, I am sure you have similar warm thoughts about attending this year. If you haven't, I urge you to consider making this your first year of attending. Paul McCombs has done a great job setting up an excellent program of speakers and presenters. There is also a statistics workshop for you to attend. I know after attending the conference you will go back to your school with great ideas to use in your classroom and to share with others.

The tentative schedule of the conference is included in this issue. I am sure you will agree that it has a lot to offer. I hope to see you there.

Diane Koenig, Editor

Send in your Nominations

Consider nominating a deserving student for the IMACC Memorial Fund Scholarship (deadline March 1), a deserving colleague for the Distinguished Service Award (deadline March 1), or retiring members meeting the qualifications for the Life Membership Award. More information about these awards can be found at www.imacc.org.

8:10-9:20	G, IT, ST	**Opening Session: Dr. Nathan Tintle** **Teaching Statistics in the 21st Century** Demands for a statistically literate society are increasing, and the algebra-based introductory statistics course (Stat 101) remains the primary venue for learning statistics for the majority of undergraduate students. In fact, over 1 million students a year take Stat 101 in the U.S. alone and yet, anecdotally, it still is often referred to by students as 'the course I hated the most' in college. Since Stat 101 is the only college-level quantitative course taken by many students, when these students leave with poor conceptual understanding, even poorer retention and bad attitudes, we've missed a tremendous opportunity to change the way our students and our society view data-informed decision making. In this talk we'll wrestle with new approaches to teaching statistics that can improve students conceptual understanding of how to draw conclusions from data while keeping students engaged, excited and viewing data-informed reasoning as a critically important 21st century skill. Fast Facts about Allerton and the IMACC Conference

Allerton House in the site of the IMACC Annual Conference. Built as a private home by Robert Allerton in 1900, it was developed into a conference center in 1946. It is located just west of Monticello, Illinois, and is part of the University of Illinois system. More information can be found at http://allerton.illinois.edu/.

Lodging rooms for the annual IMACC Conference are in the Main House, the Evergreen Lodge, the Gate House, and the Little House in the Woods. Quarters are assigned on a first-come, first-served basis. There is very limited space for spouses, and the conference is not designed for, nor do the facilities adequately accommodate, children.

There is wireless internet access in the main house.

Conference meals are pre-planned by the Conference Coordinator. Special dietary needs can be accommodated if you contact the Conference Coordinator by March 1, 2017. Snacks are served throughout the day and evening, and publishers are present with textbooks on display for your perusal. Publishers also usually donate towards our evening social hours. All amenities are included in the registration fee.

Attire has been somewhere between corporate casual and casual. You may want to bring: an umbrella (spring rain, some buildings not connected), hiking shoes, a camera, and your favorite game (social gatherings in the evening center around card games, table tennis, and other activities).

There is no evening meal on Thursday night so plan accordingly.

In years past, some conference attendees preferred to stay at the Monticello Best Western hotel at the intersection of Interstate 72 ad IL-105. Be sure to book a room early as the conference is the same weekend as Mom's weekend at U of I and hotels tend to fill quickly. The telephone number of the hotel is 847-925-6445.

Do You Know the Way to Allerton?

Main Entrance

1) Turn off the interstate at Monticello Exit 164 onto Bridge St. which will take you into Monticello.

2) Turn right at the first stop sign onto Market Street.

3) Follow Market Street to the first stop sign at Marion Street and turn right.

4) Follow Marion Street to the next stop sign and turn left onto Allerton Park road. This takes you out of town. It is about 2 miles to the entrance of Allerton Park and Conference Center. It will be on the right. Watch for the sign; it is easy to miss, especially after dark.

West Entrance

1) Turn off Interstate 72 at Monticello exit 164 onto Bridge Street. Turn left (south) off the ramp and drive towards Monticello. Turn right (west) at the first crossroads, which will be old Route 47.
2) Travel approximately 2 miles west on Route 47 and turn left (south) onto County Road 625 E, located just past the brown "Allerton Park and Conference Center" sign.
3) Continue on County Road 625 E for approximately one mile. At the stop sign, turn right (west) onto County Farm Road.
4) Turn left (south) onto the first road you come to, which will be Old Timber Road, and go through the brick columns. Follow signs to the main parking lot to the left. Conference Center guests may park in the main lot. Follow the signs to the Conference Center.
