The Math ConneXion

Volume 15 Fall 1986-87 Number 1

President's Message

LaVerne McFadden
Parkland College

I assume everyone had a relaxing and revitalizing summer. My wife and I are back in the fall routine with the exception of adjusting to our first born being off to college and dealing with the personal adjustment associated with this new phase in our daily routine.

In this message I would like to share some happenings with you.

1. I am sorry to report that the state legislature has pushed back the implementation of the IMACC recommendation regarding mathematics entrance requirements and assessment. These recommendations were both approved unanimously by IMACC and ISMAA last spring. Originally the implementation date was 1990, and it is now 1993. I personally believe this delay is a giant step backwards, and I hope ways can be found to move back toward the 1990 date. None the less, the IMACC curriculum committee is presently discussing mathematics assessment and the need, concern, and readiness in pursuing it. More will be forthcoming from the committee at a later date.
2. The program for next spring's conference is partially set. Dr. Stephen B. Rodi (AMATYC President) of Austin Community College and Dr. Lida Barrett of Northern Illinois University will be discussing proposed changes in the instruction of calculus. Also, Dr. Duane Deal of Ball State University will be the banquet speaker on Friday evening immediately following the meal. Dr. Deal will also be making a presentation at the ICTM meeting at the University of Illinois on Friday morning, October 31, 1986 at 11:15 a.m. in the Illini Union 279 (Session 50). The rest of the program is still in the planning stage and will be shared with you at a later date.
3. In the fall issue of the AMATYC News there is a special article on IMACC on page 2. Each of the affiliates of AMATYC are being featured at some time. I'm pleased to say that we are the first. Also, you will find current news from IMACC on the regional news page.

(continued)

4. Remember the 38th Annual Meeting of ICTM is fast approaching. It is to be held October 31 through November 1, 1986 in Champaign-Urbana. If you are planning on attending, I would urge you to make motel reservations soon, because there are two other large events occuring in town that same weekend.
5. While I'm talking about conventions, remember the Twelfth Annual Convention of AMATYC is in San Francisco on November 13-16, 1986. Bill Schooley of Harper College and myself will represent IMACC in the delegate assembly. I hope more IMACC members will also be in attendance.
6. The board of directors of IMACC will be meeting during the ICTM meeting in Champaign-Urbana. If you have concerns that need to be brought to the board, contact any IMACC officer or board member.

I hope everyone has an exciting and rewarding semester and look forward to seeing you at Champaign-Urbana and/or San Francisco.

FUTURE MEETING DATES

(1986) University of Illinois

Faculty Briefs

Several two-year college mathematics faculty from around Illinois retired this past year. Included in this list are former IMACC President George Grisham (Illinois Central), who plans to enjoy "retirement" in Texas and to teach mathematics in the San Antonio public schools; former IMACC Board Member Genevieve Snider (Belleville), who is looking forward to traveling and to shooting the sights with her new camera (Both George and Ginny were instrumental in the formation and in the success of IMACC. The membership of IMACC is deeply grateful for their invaluable service.); Leroy Stoldt and Ruth Murray (DuPage), both of whom have been teaching at the College of DuPage for 19 years.

Among newly hired mathematics faculty at the two-year college level are Carol Poos (Belleville), Lois Kiehlbauch (McHenry County), Terri Ellen Rogers (DuPage), and Jim Gibson (John A. Logan). IMACC invites each of these newly hired faculty to become a part of our organization.

Lynn Akers (Parkland) resigned his teaching position in May, 1986, to pursue a personal business venture involving computerized education. Lynn in presently living in Atlanta, Georgia.

John Bradburn (Elgin) is on sabbatical during this fall semester to develop a mathematics review course.

The only Illinois faculty of the 28 participants to attend the Second Annual AMATYC Summer Institute at Ricks College, Rexburg, Idaho, was Kathy Hall (Truman). Kathy was one of 23 who attended the Applied Mathematics course.

James Hall (Parkland) and Richard Bennett (Parkland) received an award this summer for *Typographical Excellence* for their text entitled *College Algebra with Applications*. They were cited by the National Composition Association for excellence in the clarity, the readability, the layout, and the design of this text.

IMACC Board Member Ceil Cooper (Harper) and IMACC Membership Chairperson Dom Magno (Harper) were recently promoted in rank. Ceil was promoted to Assistant Professor while Dom was promoted to Associate Professor.

Jerry Maxwell (Olney Central) is one of several IMACC members who will be presenting a talk at the ICTM Annual Meeting on October 31-November 1, 1986, at the University of Illinois-Champaign. Jerry's presentation is entitled *Recreations, Puzzles, and Stories - When To Use Them*. Other IMACC members invited to speak at ICTM include Daniel Alexander (Parkland), Philip Beckman (Black Hawk), Carole Bernett (Harper), Russell Day (Illinois Central), Barbara Gentry (Parkland), James Hall (Parkland), Nancy Heggem (Harper), Art Moser (Illinois Central), and Otis Shouse (Olney Central).

At the 12th Annual AMATYC Convention in San Franciso, November 13-16, 1986, Richard Fritz (Moraine Valley) and Bill Schooley (Harper) have been invited to speak. Richard will be presenting a four hour mini-

(Continued on next page.)

course entitled *An Overview of the C Programming Language* while Bill's talk is entitled *A How-to Technique to Increase Your Organization's Membership.*
Carolyn Goodman (Parkland) gave birth to a baby boy, Matthew Dave, on July 25, 1986. Last reports are that mother, father Dave, and sister Cassandra are all doing fine.
James Hall (Parkland) had an article published in the Fall, 1986, issue of *The AMATYC NEWS.* The article is entitled *Supply and Demand of Mathematics Teachers.*
IMACC: An Active, Involved AMATYC Affiliate by LaVerne McFadden (Parkland), IMACC President, is the title of an article published in the Fall, 1986, issue of *The AMATYC News.* This article is the first in a feature series of articles to be published by *The AMATYC News* on AMATYC affiliates and their activities.

****
If you have a Faculty Brief which you would like to share with the IMACC membership about a colleague in your Department or about yourself, then please send the information to Bill Schooley, Assistant Editor, *The Math ConneXion*, Mathematics Department, Harper College, Palatine, IL 60067.
****

1986-87 IMACC Institutional Members

The following is a list of 1986-87 IMACC Institutional Members.

Black Hawk College - Quad Cities
Harper College
Illinois Central College
Illinois State University
Illinois Valley College
John A. Logan College
Kishwaukee College
Lincoln Land College
Morton College
Oakton College
Olive-Harvey College
Parkland College
Sangamon State University
Southern Illinois University - Carbondale

If your college or university name is not on the above list, please contact the appropriate administrator at your institution and encourage him/her to have your college or university become a 1986-87 IMACC Institutional Member.

IMACC Committee Updates/Reports

IMACC Curriculum Committee, Dale Ewen (Parkland), Chair

As you probably know, the State Legislature changed the effective date of the minimum entrance requirements for baccalaureate programs from 1990 to 1993. Much work needs to be done. The ICCB staff and the IMACC Committee will utilize this extra time. First, the ICCB staff has invited IMACC to present the Committee's proposal to an ICCB systemwide workshop in September as well as sending it to all state community colleges. (Incidentally, ISMAA unanimously approved our proposal one week after the IMACC meeting. IMACC is also well represented on the IBHE-ISBE Joint Task Force on Admissions Requirements and Learning Outcomes.) Later in the fall, the ICCB and IMACC plan to jointly sponsor a workshop to determine how a mathematics assessment program should be developed on a statewide basis. At present, we plan to invite state agency staff, representative two-year and four-year mathematics faculty, and the appropriate commercial testing organization personnel.

Service to IMACC Committee, James Trefzger (McHenry), Chair

The Service to IMACC Committee is considering the institution of two different awards: *Life Membership in IMACC* for retired members of the organization and some type of a *Distinguished Service Award*. The *Distinguished Service Award* would likely be an annual award, something like the *James Armstrong Award*, but with the idea of honoring a current IMACC member for an outstanding career of service to this organization. We expect to have recommendations ready for the IMACC Board meeting in October.

Nominations/Elections Committee, Ann Dice (Harper), Chair

The Nominations/Elections Committee is now securing nominations for 1986-87 officers and board members. Please forward the names of possible candidates to John West (Belleville Area College), Stu Anderson (College of DuPage), or Ann Dice (Harper College) by December 1, 1986.

Membership Committee, Dom Magno (Harper), Chair

As of this writing, the current membership of IMACC stands at 119 individual members and 14 Institutional Members. The number of Institutional Members appears to be down a little from last year at this time. The Membership Committee asks your help in soliciting your college to become an Institutional Member. (Remember that each Institutional Member may send one representative to the Annual Spring Meeting on April 2-4, 1987, at Allerton House for no additional charge. Maybe you can be that representative.)

Shortly you will be receiving membership materials. If you have already paid your annual dues, you will be receiving your

(Continued on the next page.)

IMACC Committee Updates/Reports

Membership Committee (Continued)
signed membership card. We encourage the membership to spur their colleagues into joining IMACC. There are many two-year college mathematics teachers in the state of Illinois who are not members of IMACC. Let's try to get them in the fold this year or at least find out why they don't want to join our illustrious group. Ask them to join for just one year and experience Allerton House and I am sure that they will be "hooked" forever. The Committee members will be contacting schools in their assigned regions. We will ask for a volunteer at each school to more or less contact his/her colleagues and try to get them to join.

If you have not paid your dues for the 1986-87 year, then please do so when you receive your IMACC Membership Application Form in the mail. You will keep getting these little reminders throughout the year until you join, so why fight it!!!

It is the Committee's goal to push membership to new heights this year. (This is no easy task due to the fanastic job that the previous Membership Committee did.) To do this, there has to be a little "Membership Committee" in each and every member.

Thank you for your help and have a great year.

James Armstrong Award Committee, Robert Eicken (ICC), Chair

The *James Armstrong Award* was established in 1978 to honor the late University of Illinois professor James Armstrong, whose leadership fostered a spirit of cooperation between two-year college mathematics teachers and the mathematics faculties at four-year colleges and universities. This *Award* is to be given annually to a four-year college or university professor who continues this tradition of cooperation and willingness to offer assistance in the teaching of mathematics in the two-year colleges. Previous recipients include Tony Peressini of the University of Illinois-Champaign, Arnold Wendt from Western Illinois University, and John Dossey from Illinois State University.

Please take time now to submit the name of your nominee, his position, and his school, with a supporting letter for the Committee's consideration to Robert Eicken, Department of Mathematics, Illinois Central College, East Peoria, IL 61635. The deadline for nominations is March 4, 1987.

Program Committee, LaVerne McFadden (Parkland), Chair

Thus far the Program Committee has invited Dr. Stephen B. Rodi (AMATYC President) of Austin Community College (TX) and Dr. Lida Barrett of Northern Illinois University to speak at the IMACC Annual Spring Workshop, April 2-4, 1987, held at Allerton House, Monticello, IL. Both individuals have accepted our invitation and each will discuss the purposed changes in the

(Continued on the next page.)

IMACC Committee Updates/Reports

Program Committee (Continued)

instruction of calculus. In addition, Mr. Duane Deal, Professor of Mathematics at Ball State University, Muncie, IN, is scheduled to be the Friday evening banquet speaker. The rest of the Workshop program is still in the planning stage.

IMACC Memorial Fund Scholarship Committee

Vince Zalapi (Lake County), Chair

Information regarding this Committee's work, along with the appropriate application and nomination forms, is included elsewhere in *The ConneXion*.

****

Campus Happenings

Oakton Community College

During the 1985-86 academic year, Oakton's Mathematics Department offered *Mathematics: A New Beginning*, a two-semester program designed to bring mathematical skills to a competence level where degree requirements could be met and/or career options could be made available. Students were offered the opportunity to complete, in two semesters, a mathematics sequence which traditionally requires three or four semesters. *Mathematics: A New Beginning* took students from a brief review of arithmetic (one semester only) through a three-course algebra sequence: Elementary Algebra (3 semester hours), Intermediate Algebra (4 semester hours), and College Algebra (3 semester hours). A total of eleven semester hours were earned, seven of which applied to a degree and are transferable. No prerequisite was necessary since the program started with arithmetic. The program was designed for the student with a poor mathematics background and whose current goals required a sequence of mathematics courses; such a student, with proper motivation, was willing to undertake a rigorous program in order to start with needed basic skills, obtain some transfer credits, and yet save a semester or two of time.

Adele LeGere

College of Lake County

On Thursday, September 18, 1986, the Distinguished Visiting Lecture Series at the College of Lake County presented Dr. Joseph Gallian of the University of Minnesota-Duluth. Dr. Gallian's talk was entitled *Deciphering Codes: A Mathematical Application*. The talk included the use of codes in commerical applications such as the familiar Universal Product Code on packaged products.

Barbara J. Blass

Morton College

Morton College instituted an Algebra Placement Examination in the Fall of 1986. The examination will serve to place students either in Intermediate Algebra or in College Algebra. It was written by Dr. Elaine Pavelka and represents the culmination of more than two years of writing, re-writing, administering the examination in a pilot program and performing statistical tests which involved the correlation of the test scores with the final semester grades in algebra.

Dr. Elaine Pavelka

More Campus Happenings on the next page.

Campus Happenings (Continued)

Parkland College

The College undertook a new approach to advising new students this past summer. During the summer, a mathematics instructor was available in the counseling center to interpret math assessment scores and to advise each student as to which math course was most appropriate as determined by his assessment score and his program of study. This new approach was well received by all who were involved.

A new cultural center is being constructed at Parkland College. This center will consist of a theatre and a planetarium. Both are scheduled to open in early 1987.

LaVerne McFadden

Triton College

A newsletter called *the Den* will be published by Triton College and edited by Carole Bauer. The developmental education newsletter is aimed at all faculty and staff at the College and will be a means of communication. Anyone interested in obtaining a copy of the first issue should contact Carole Bauer, Triton College, 2000 Fifth Avenue, River Grove, IL 60171.

Carole Bauer

Elgin Community College

The Elgin Community College (District #509) Board of Trustees recently voted to have a referendum on November 4, 1986. The referendum will ask the voters to increase the tax rate in the Education Fund by 6 cents. Two special levies expired in 1985 which totaled 4.5 cents. The net increase for voters, therefore, is only 1.5 cents. If you live within District #509, please vote YES on this very important referendum.

Barbara Juister

The State

Congratulations to all the Illinois community colleges which participated in the 1985-86 AMATYC Student Mathematics League. Among the top ten colleges in this competition were Belleville Area (5th place), Thornton (6th place), and Moraine Valley (9th place). Also participating in this three round competition were Parkland, Truman, Olive-Harvey, Elgin, and Triton.

Anyone interested in "coaching" his college team in the 1986-87 AMATYC Student Mathematics League should contact Terry Shell, Mathematics Department, Santa Rosa Junior College, 1501 Mendocino Avenue, Santa Rosa, CA 95401. The entrance fee is nominal ($15) and the time commitment is minimal, while the rewards are substantial. You owe it to your students to get them

(Continued on the next page.)

Campus Happenings

The State (Continued)
involved in this competition composed of 3 one-hour problem solving exams. (However, time is running short. The first exam is scheduled in November.) Prizes are awarded to individuals while plaques are presented annually to the highest scoring schools.

Bill Schooley

If you have an annoucement about a "happening" which is being planned or which has already occurred on your campus and which might be of interest to the membership, please send the information to Bill Schooley, Assistant Editor, *The Math ConneXion*, Mathematics Department, Harper College, Palatine, IL 60067.
****

The Nation

The Third Annual AMATYC Summer Institute is tentatively being planned to be held again at Ricks College, Rexburg, Idaho. Although the dates have not been set, it appears that this one-week Institute will be scheduled during early August, 1987, and will offer two courses: *Applied Mathematics* and possibly *Computer Aided Instruction (CAI) for Calculus*. If you have questions or wish to obtain further information regarding this tentatively planned Institute, contact Steven Terry, Mathematics Department, Ricks College, Rexburg, ID 83440 or at (208) 356-1406.

JAMES ARMSTRONG AWARD

CALL FOR NOMINATIONS

The James Armstrong Award was established in 1978 to honor Jim's leadership in fostering a spirit of cooperation between two-year college math teachers and the math faculties at four-year colleges and universities. It is to be awarded annually to a four-year college or university professor who continues this tradition of cooperation and willingness to offer assistance in the teaching of mathematics in the two-year colleges. Previous recipients have been Tony Peressini of the University of Illinois, Arnold Wendt from Western Illinois University, and John Dossey from Illinois State University.

Please take time now to submit your nominee, position and school, with a supporting letter for the committee's consideration to:

Robert Eicken
Department of Mathematics
Illinois Central College
East Peoria, IL 61635

The deadline for nominations to be received is March 4, 1987.

Dear Colleague:

It is now time to nominate students for the IMACC Memorial Fund Scholarship. Please take a few minutes soon to do this. The scholarship should be more than $300. The faculty information form is to be completed by you and received by me at the below address, no later than February 1, 1987. Copies of the student information form are to be given to the students you nominate. Please remind the student you nominate that all materials must be received by me on or before February 1, 1987. Applications received after February 1, 1987 will not be considered.

Sincerely,

Vincent A. Zalapi

Vincent A. Zalapi
Chairman, Scholarship Committee
College of Lake County
19351 W. Washington Street
Grayslake, IL 60030

Philosophy: The IMACC Scholarship is awarded annually to a student attending an Illinois two-year or four-year college meeting all of the eligibility criteria stated below and selected by the IMACC Scholarship Committee. The scholarship is awarded in memory of James Armstrong, a University of Illinois Professor until his death. Mr. Armstrong was instrumental in establishing the Allerton Conferences and in fostering better relations between two-year and senior colleges.

The scholarship provides approximately $300 or more to the selected recipient to help defray the costs encountered at an institution of higher education. The money may be used for whatever purpose the recipient deems necessary.

Eligibility Criteria: Students meeting all of the criteria may apply for the IMACC Scholarship. If, in the opinion of the Selection Committee, there is no bonified candidate, the scholarship will not be awarded that year. The decision of the Committee is final.

1. The applicant must be a citizen of the United States. The individual must have a cumulative grade point average of B or better with no math grade less than a B; he/she must be pursuing an education at some institution of higher learning in the State of Illinois with a high demonstrated potential to complete the program and must have earned at least 30 semester hours at a community college.

2. The applicant must demonstrate a need for the scholarship.

3. An applicant must be intending to complete a degree in mathematics, engineering, or an applied mathematics curriculum.

4. Each applicant must be nominated by a current member of IMACC who must submit a statement of his/her rationale for nominating the applicant. This written statement must be sent to the Chair of the Selection Committee under separate cover from that of the student application. The written nomination must not exceed one double-spaced typewritten page. Four copies are required. It is emphasized that the person nominating a student shall not assist the student in the writing of his/her personal statement.

5. The applicant must submit a written application and transcript of courses and grades. Details concerning career objectives, work experiences, financial conditions, general philosophy of education, and other information that is felt to be helpful in assisting the Selection Committee should be included. The written application must not be longer than five double-spaced standard typewritten pages. Four copies are required. These copies must be sent under separate cover to the Chair of the Selection Committee.

6. The deadline for receiving applications is February 1 of the school year.

7. The scholarship will be awarded to selected applicants after receiving a written verification from the college records office that the applicant has enrolled in an institution of higher education in the state of Illinois as a full-time student. Full-time student status shall be decided by the institution requirements. Failure to do this will result in the disqualification of the applicant and the next eligible applicant will be awarded the scholarship.

8. The scholarship will be awarded to an individual student only once. The student may, however, have his/her name submitted a maximum of two times.

STUDENT INFORMATION FORM FOR THE IMACC MEMORIAL FUND SCHOLARSHIP

1. The applicant must be a citizen of the United States.

2. The applicant must have a cumulative grade point average of B or better with no math grade less than a B. He/She must be pursuing an education at some institution of higher learning in the state of Illinois with a high demonstrated potential to complete the program and must have earned at least 30 semester hours at the community college.

   Complete the following:

   Name _____

   Home Address _____

   Home Phone _____

   Semester hours of completed community college courses _____

   Cumulative grade point average _____

   Semester hours of completed mathematics courses _____

3. An applicant must be intending to complete a degree in mathematics, engineering, or an applied mathematics curriculum.

   Complete the following:

   Degree pursued _____

   Illinois institution to which applicant intends to transfer, enroll as a full-time student, and complete a degree _____

4. The scholarship will be awarded to selected applicants after receiving a written verification from the college records office that the applicant has enrolled in an institute of higher education in the state of Illinois as a full-time student. Full-time status shall be decided by the institution requirements. Failure to do this will result in the disqualification of the applicant, and the next eligible applicant will be awarded the scholarship.

5. Applicant must submit a written application not longer than five double-spaced standard typewritten pages. Details concerning the following must be addressed: (1) career objectives, (2) work experience, (3) financial conditions and need for scholarship, (4) general philosophy of education, and (5) other information felt to be helpful. Applicants should follow the above order and label each area addressed.

6. Applicant must submit to the chair of the Selection Committee, one copy of a transcript of courses and grades. Four copies of this information form and the written application are required and must be sent to the following address:

   Vincent A. Zalapi
   Chairman, Scholarship Committee
   Math Department
   College of Lake County
   19351 W. Washington Street
   Grayslake, IL 60030

The forms and applications must reach my office no later than February 1, 1987. Allow five days for delivery.
